

## STATEMENT OF PURPOSE

### RS22579

This legislation will start the process for Idaho to seek primacy for the National Pollution Discharge Elimination Program (NPDES). Primacy means that Idaho would be taking over as the administrator and enforcement authority for the permits associated with this program. Currently there are just four states that do not have Primacy. This legislation includes:

Sections 1 and 2 deal with required language for enforcement authority on NPDES. This language is standard in NPDES programs throughout the nation.

Section 3 is the legislative stated purpose.

Section 4 is the language that enables Idaho DEQ to move forward in seeking primacy from the Environmental Protection Agency (EPA).

This process needed to receive program delegation or primacy estimated to be:

SFY 2016 Phase 1. A. Primacy Application Package Development and Submittal Startup-  
3 FTEs \$300,000 per year

#### Work Tasks

1. Develop Funding Strategy
